Temporary Fencing System

- The FenceSafe System was the first full Temporary Mesh Fencing system to offer all the aspects of a Rigid Mesh Fence in a temporary format.
- A Systems that provides a profiled fencing system that can be converted to permanent at the end of the project.
- The patented cantilever base means that the temporary fence is designed to BS EN 1991 for Wind Loading and can withstand winds in excess of 100mph.
- 100% Recycled Base
- 90% Recycled UK and European Steel Fencing
- Lower Carbon Footprint than hoarding systems
